Undersecretary Collins to speak at solar cell homes dedication

Pat Collins, undersecretary of energy, U.S. Department of Energy, will be guest speaker at a special ceremony highlighting solar energy research at 10:30 a.m., Dec. 9 at the Florida Solar Energy Center (FSEC) in Cape Canaveral.

Collins will speak about "Renewable Energy in America." Other guest speakers include U.S. Rep. Bill Nelson, who will speak about "America's Energy Future," and Senator Clark Maxwell, who will speak on "Florida's Commitment to Energy Research." The public is invited to the event.

The dedication ceremony will celebrate completion of three prototype photovoltaic homes that generate electricity from arrays of solar cells on their southfacing roofs. The prototypes were built as part of the Photovoltaic Sou-

theast Residential Experiment Station, one of three such experiment stations in the U.S. sponsored by the Department of Energy.

Designed by FSEC architects and engineers, the homes are experimental laboratories. Connected with a local utility, they will be tested to determine how well they operate and how they affect utility operations.

In the future, when photovoltaic costs are lower, thousands of similar homes may generate much of their electric power from sunlight. Any excess electricity could be sent onto the utility grid for credit to homeowners. The prototypes demonstrate that photovoltaics can be a reliable and practical source of residential power.

Prepare for dedication

Jerry Ventre, (left) FSEC director, and Associate Engineer Gobind Atmaram (standing) closely observe an FSEC technician installing photovoltaic modules on one of three prototype homes at Cape Canaveral that will be dedicated on Dec. 9.

UPI NEWSPHOTO - ORLANDO, FLORIDA: A presidential candidate applauds a presidential lookalike as Edgar Wycoff, dressed as Abe Lincoln, addresses a Freedom Day Rally, and former Governor Ronald Reagan shows his approval. Reagan was the featured speaker at the event which drew several thousand people. -2-15-76.

A Madrigal is medieval experience

The excitement and pageantry of sixteenth century England will visit UCF Dec. 2-3, and 8-10 for this year's Madrigal Dinners to be held in the University Dining Room.

The annual dinners, sponsored by the UCF music department, create a Renaissance feast complete with a kaleidoscope of color and sound.

Golf tourney nets \$9,600

The eighth annual UCF Golf Classic should net the university's golf program about \$9,600. Coach Wayne Mendel announced.

Ninety-six players paid \$150 apiece for the privilege of teeing off at Rio Pinar County Club on Nov. 21 in Chairman Dan Ruffier's project. For that tab they got to play in select company, competing for prizes and honors, then lunch, cocktails and dinner.

Low gross winners were Jack Richey and Tracy Allen. Best low net went to John North and Lee Hanna.

Each dinner will open with a 7:30 p.m. procession of Madrigal Singers clothed in authentic reproductions of the intricate garments of the Renaissance, to be followed by fanfares and minstrels, the boar's head, the wassail bowl and the flaming pudding that combine for an event that has become a local tradition.

Tickets at \$15 each are available now from the UCF music department.

Course explains photovoltaics

In response to demand for more information on photovoltaics (process converting sunlight directly into electricity) the Florida Solar Energy Center (FSEC) is offering a two-day workshop at Cape Canaveral Dec. 8-9. Course fees is \$250.

For more information, call or write: Florida Solar Energy Center, 300 State Road 401, Cape Canaveral, FL 32920. ATTN: Ken Sheinkopf, program coordinator, (305) 783-0300.

Ronald Reagan

What's in a name? Fame, with the star's autograph

Readers who have been around Central Florida since 1976 may recognize the picture of "Two Presidents," as it was labeled when it was distributed nationally.

On Feb. 15, 1976, it would have been more accurate to have labeled the picture, "Two Actors," because the deliverer of The Gettysburg Address was Dr. Ed Wycoff (associate professor/Communication). The beard was authentic, that is real, and the apparel was just about old enough to have been Abe Lincoln's.

The other fellow, waiting his turn to speak at the Bicentennial Freedom Day

Rally at Winter Park's Showalter field, didn't make it to the White House until the 1980 campaign.

Last April, while he was in Las Vegas to emcee the National Congress on Aerospace Education, Wycoff rekindled an acquaintance with a former California Congressman, Donald H. Clausen.

Clausen, now director of special programs for the Federal Aviation Agency, thought he might be seeing their mutual actor friend in Washington.

Wycoff sent him the treasured picture and a few days ago it came back to him, greatly enhanced as a keepsake, with the President's autograph.

Bookstore sale lowers prices for Christmas

Jim Liggett, supervisor of general merchandise, invites the campus community to shop the University Bookstore for Christmas gifts.

Books aren't the only merchandise in the store, he reminds, although new ones are in and make perfect gifts. There are children's books and calendars, too.

And, he promises a sale the week of Dec. 12-16, when all shirts, shorts, sweat shirts, jackets and other soft goods will go for 25 percent lower than regular price.

"Make the bookstore your first stop. Use your coffee break, use your lunch hour, and drive right past the crowded malls with your gift needs already satisfied," he urged.

Youth band to audition

Auditions for the Florida Youth Wind Ensemble and Jazz Lab will be held at UCF's Music Rehearsal Hall on Dec. 5, 6, and 7.

A 60-member honors band, featuring secondary school musicians, the ensemble under director Jerry Gardner is sponsored by the UCF Music Department and the Central Florida Band Directors. Jazz pianist John C. Whitney will direct the Jazz Lab. Lab participants will be selected from the ensemble.

Rehearsals for both groups will be held from 4:15 - 7:15 p.m. each Wednesday. Auditions are by appointment only.

For appointments or more information, call 275-2869.

Loren Knutson
Recreation Director
says...

Golf Tournament Friday, Dec. 2

Recreational Services will host "Home on the Range" Part II, a six-hole, two-person, best-ball event on Friday, Dec. 2. This unique event takes less than two hours to play and you can choose your Tee-time at noon, 2 p.m. or 4 p.m. Yes, we have a real green and, yes, this is a challenging event, even for the low handicappers. Call x2408 or stop by Recreational Services for more information and enter by Thursday, December 1.

Santa Claus calls UCF kids

The office of Recreational Services has once again arranged to bring Santa for a couple evenings of telephone calls to the children of UCF students, faculty, and staff. The call will be made from 5 p.m. to 7:30 p.m. on Tuesday, Dec. 6, and Monday, Dec. 12.

To arrange for Santa to call your little darlings, ages 3-6 only, please, stop by the Recreational Services office and fill out a call request form or complete and return the form you received in the campus mail. For more information call x2408.

Official memoranda

Publication of these memoranda and announcements about University policy and procedures constitutes official notice to faculty and staff

To: All Employees
From: Provost Leslie L. Ellis,
Vice President John Philip Goree
Subject: Christmas Closing

11/22/83

Once again, an attempt is being made to conserve energy over the Christmas holidays between December 16, 1983, and January 2, 1984, and all employees are being encouraged to take annual leave. Lights will be provided for those employees who will not be on leave, but air conditioning and heat will be provided only in those areas which have temperature-sensitive equipment or which have animals used for research. The following list outlines those buildings which will have air conditioning or heat provided:

BUILDING	MODE
Administration	OFF
Art Complex	OFF
Athletic Facilities	OFF
Biological Sciences	OFF
(except for certain research areas)	OFF
Central Receiving	OFF
Classroom	OFF

To: All Faculty and Staff
From: Robert T. Schaal,
Director of Personnel
Subject: Christmas Holiday Closing

In order to reduce utility expenses, various university buildings will be placed on minimal heating/cooling schedules from 5 p.m. December 16, 1983 to 8 a.m., January 3, 1984.

Because environmental conditions inside these buildings are not expected to be conducive to normal work activities and to maximize energy savings, all employees whose workload permits are encouraged to take leave during this period.

Employees who desire to take leave, but will not have sufficient leave accumulated, may elect to do one of the following:

Take what leave they have accumulated and work the remainder of the holiday period.

Career Service employees may also use accrued compensatory leave credits and permanent full-time Career Service employees may also use the Personal Holiday Benefit (if it has not previously been used this current fiscal year).

Take leave without pay. Note — an employee in "leave without pay" status for the entire day before a holiday will not be paid for the holiday.

Use "advanced" annual leave credits, as authorized by the Board of Regents for faculty and A & P personnel and the Department of Administration for Career Service personnel, subject to the following provisions:

a. Annual leave will be advanced only to those employees who do not have sufficient annual leave credits to cover their absence during the period from December 17 through January 2.

b. Advanced use of annual leave may be

approved only during this holiday season and only to the extent necessary to make normal salary payments during this period.

Accurate records of all annual leave credits to be advanced will be kept by both the departments and the Personnel Office. All leave earned by affected employees will be credited against advanced leave until the full amount of the advanced leave has been recovered.

d. If an employee is advanced annual leave credits and terminates employment with the University prior to the full amount of advanced leave being repaid, appropriate action shall be taken to deduct the amount of leave owed from the employee's final salary payment.

e. No employee shall be forced to take annual leave or leave without pay as a result of the University being closed during this period.

Employees who must work, or who do not take annual leave during the curtailment of non-essential services should be productively engaged in work activities and be adequately supervised. If supervisory personnel within a department will be on leave, supervision should insure that adequate work assignments and appropriate arrangements for supervision are made for their employees.

Supervisors of employees whose normal work stations are in buildings affected by the discontinuation of heating/air conditioning are responsible for arranging alternate work stations for employees who will work during the holiday period. For assistance in arranging alternate work stations, supervisors should contact Personnel, Ext. 2771.

Supervisors in buildings which will remain heated or air conditioned for all or part of the holiday period also are asked to contact Personnel in instances where work stations will be available for use by reassigned employees.

Supervisors in buildings which will be affected by the curtailment on utilities may also wish to provide information regarding the need for assistance on work assignments that can be accomplished by reassigned employees who work during this holiday period.

Faculty exchange includes job, home and clothes

Wonder how the Joby Anthony family is doing?

After talking awhile with Phyllis Chinn, mathematics professor from Humboldt State University, Arcata, Calif., the question is a natural.

Mrs. Chinn occupies Anthony's office, Room 148 CCI, uses his files, personal belongings and all. At the Anthony's home near Union Park, Mrs. Chinn looks in the closet for a matching blouse, finds one and uses it. It belongs to Mrs. Anthony, who is conveniently the same size.

Meanwhile, out there in fog-bound Arcata, the Anthonys, their daughter, 12, and son, 14, are keeping the Chinn's chickens fed and enjoying eggs harvested from the back yard. Also, maybe Mrs. Anthony has opened a closet a few times and found just the right article of apparel that Mrs. Chinn won't mind if she wears.

That's a slice of domestic life in the faculty exchange program.

Until next summer, Anthony is at Humboldt, sharing class loads that were Mrs. Chinn's. According to her, he's probably enjoying a smaller class size than he is used to at UCF, and the fact he's got assistants grading papers.

At this end of the bargain she's "delighted," even "thrilled." She has only two classes and the rest of her time is free for research with Robert Brigham, Math, and Ron Dutton, computer science, who have co-authored articles on graph theory.

At Humboldt, Mrs. Chinn was one of a kind in graph theory and could communicate only with specialists on other campuses. At UCF she has found others who talk her favorite language.

ANTHONY

The Brigham-Dutton-Chinn brainstorming sessions start with casual conversation and gradually focus on a subject of interest to all of them and they agree to take parts of it to test. When they reconvene they each have notes and more ideas to discuss.

Eventually, their creative thinking resolves itself into words on paper, illustrated with dots and connecting lines.

Meanwhile, across campus, Daryl Ngee Chinn, admissions counselor at Humboldt, up until the family left there last July, has found employment to his liking in the UCF English Department. He has been titled, "adjunct," and has been assigned three classes.

American-born, but still raised in a family where Chinese was spoken at home, Chinn taught their two children, Allison-Hai-Ting, 10, and Wesley Chee, 7, to speak Chinese.

Deferring to his wife's career needs, Chinn spent a lot of their married life housekeeping and raising children. Nevertheless, before Humboldt, the family lived in Baltimore so he could earn a master's degree at Johns Hopkins.

Before there were children the couple toured Europe for a year. It fitted his interest in photography and writing poetry in French and English.

Since Humboldt is 300 miles north of San Francisco the Chinnns are experiencing pleasures in Florida that were too remote, that is touring tourist attractions, eating at a wide choice of restaurants, seeing plays and visiting the museum.

In the Anthony home the Chinnns enjoy living on a lake, but they can't ride their bicycles to the university. With 10,000 population in Arcata the

THE CHINNS
...Phyllis and Daryl

Chinnns could have done without a car, she figures. "Here it's four miles to the nearest store!"

Phyllis Chinn liked being a student. She has four degrees from four universities, Brandeis, Harvard, California at San Diego and California at Santa Barbara.

At Humboldt she organized a workshop on science and math for high school girls and with Lucy Morse, Industrial Engineering, she will put on one at UCF in late January.

Informally, she's been a guest teacher at Union Park Elementary's gifted class, where Allison and Wesley are enrolled.

She's still looking for a juggling partner. "A lot of math professors do it... It's sort of metaphoric. I'm not naturally coordinated so I have to work hard at it."

That leaves Dr. Anthony with small classes, help grading papers, a juggling partner Dr. Chinn left behind and a nice town for riding a bicycle. Trouble is, the Chinnns shipped their bikes to Florida!

Student dancers stage own show

UCF dancers will present an "Afternoon of Dance" on Dec. 8 at 4 p.m., and an "Evening of Dance" on Dec. 9 at 8 p.m. in the new Black Box Theater on campus.

The productions by student choreographers and dancers will present several phases of dance, including ballet, modern, musical comedy, and modern jazz. There will also be a special presentation by the Orlando International Folk Dancers.

General Admission is \$3. UCF students are admitted free. Call x2862 for reservations.

Swallow all your learning in the morning, but digest it in company in the evenings.

—Lord Chesterfield

Grant opportunities

Florida Endowment for the Humanities — Public humanities projects that involve experts in humanistic fields with citizens to discuss important values that have shaped our past, characterize our present, and influence our future. Projects should be interesting and satisfying, should use the humanities, and should reach the people. Regular grants are for an amount over \$2,500; mini-grants are between \$1,000 and \$2,500; and program development grants are for less than \$1,000. Due January 1.

Health Financing Research and Demonstration Grants (HHS) — Current priorities are: end state renal disease treatment; payment systems and other means of reducing the cost and maintaining the quality of long-term care services; outpatient reimbursement systems; hospital protective payment systems incentives to beneficiaries to be informed purchasers of health care services; physician reimbursement; extent to which preventive services reduce the overall cost of health care, particularly for children; incentives to raise the management of health and medical care to a more efficient operating level; effects of recent federal laws on Medicaid recipients; severity of illness in diagnosis related groups for Medicare hospital payment. Due January 9.

Fund for the Improvement of Post-secondary Education (ED) — Program priorities: learning important and difficult subjects and abilities; improving course and program completion rates and articulation; providing educational programs/services for workers, unemployed individuals, businesses and communities; understanding educational uses and implications of new technology and electronic communication media; improving graduate and professional education; developing teacher education and in-service programs; enhancing institutional leadership and management. Preapplications due January 10.

Science and Technology to Aid the Handicapped (NSF) — For research which attempts to bring a knowledge base in science and engineering directly to the aid of the handicapped. No due date.

Metropolitan Life Foundation — Program areas and priorities: **Health** — education of the public; basic research, safety promotion, improved efficiency of health care delivery, reduction of health care costs and hospital stays; **Education** — programs in insurance, actuarial science, business, economics, programs to promote economic literacy; **Civic Affairs and Public Policy** — programs benefitting youth and efforts to improve the legal system; **Culture** — traveling exhibits, performances and tours, organizations providing access to written, performing and visual arts, art education, particularly for children. No due date.

William H. Donner Foundation — Support to programs that advance American study and understanding of Canada, address critical issues relating to the management of the nation's coastal zone and inland water resources, and develop model nutrition education programs. No due date.

For further information, please contact Nancy Morgan, x2671.

Part of the American myth is that people who are handed the skin of a dead sheep at graduating time think it will keep their minds alive forever.

—John Mason Brown

Employment Opportunities

UCF is an Equal Opportunity/Affirmative Action Employer

For resume of current openings,
call Career Opportunity Line, 275-2778

Personnel Services lists the following vacancies, by title, department, minimum qualifications, annual salary range, bi-weekly salary, and closing date. It is the responsibility of the applicant to successfully complete any required performance and/or written exams prior to being considered for a specific job opening. For information on any required exams, as well as further details on these positions, contact Personnel, x2771. A listing of available faculty positions within the SUS is available on request at the receptionist's desk (ADM 230).

Career Service

SYSTEMS ANALYST SUPERVISOR (Computer Services). Graduation from an accredited four-year college or university with major course work in computer systems analysis and/or programming, one of which must have been at the Computer Systems Analyst II level or above; or graduation from an accredited four-year college or university and three years of experience in computer systems: analysis and/or programming, one year must have been at the Computer Systems Analyst II level or above. \$19,543.68-26,538.48, \$748.80. 12/09/83.

CLASSROOM TEACHER I (Creative School for Children). Bachelor's degree with major coursework in education, psychology, social science, or related fields. Possession of a temporary or regular Florida teaching certificate. Certification in early childhood education. Experience in teaching three year old pre-school children. \$12,235.68-16,119.36, \$468.80. 12/09/83.

LABORATORY TECH. II (Biological Sciences).
